

The ICAC's 80th Plenary Meeting

Dr Kater Hake

Dr Kater Hake is the Vice President of Agricultural and Environmental Research at Cotton Incorporated where he is responsible for the cotton production research program. Kater leads a team of seven Research Directors who develop and support innovative problem-solving research with a network of 300 public sector scientists to increase the profitability and sustainability of cotton farming in the U.S.

Kater came to Cotton Incorporated from a long career in cotton research and management. Most recently he was the Vice President of Technology Development at Delta & Pine Land Company. He has also held positions at Texas A&M University, The National Cotton Council, and the University of California. He holds three degrees from the University of California at Davis and at Riverside and was recently elected a Fellow of AAAS for his technology transfer and promotion of science in Agriculture.
