

81ST PLENARY MEETING

MUMBAI, INDIA

🌐 2-5 December 2023

**Cotton Value Chain:
“Local Innovations for Global Prosperity”**

Ms Dipanwita Ray

Dipanwita Ray is an Innovation Analyst at Fashion for Good, the global platform for innovation that brings together the entire fashion ecosystem to collaborate and drive the change toward a circular industry. As an innovation analyst, Ms Dipanwita is responsible for scouting innovators, performing due diligence, and helping scale sustainable innovations in the raw materials space, specifically focusing on natural fibres and agriwaste fibres. This includes orchestrating multi-stakeholder projects and pilots to validate and scale innovative technologies. She also works on the Sorting for Circularity Project’s Post-consumer textile pilot alongside the End of Use team. Before joining Fashion for Good in early 2023, Ms Dipanwita worked in the Supply Chain Management team at Fabindia, a platform for products that are made from traditional and hand-based processes. She has a bachelors in Textile Technology from the Institute of Chemical Technology and attained her master’s degree in Fashion Technology from the National Institute of Fashion Technology, Delhi. She enjoys working at the intersection of technology, sustainability and society.
